We look forward to offering you the very latest in LEON Dozer Blade Unit innovation and increased mounting bracket selection. The LEON Dozer Blade Road Show team and Customer Support team looks forward to serving you in 2014! Season's Greetings!

Popular Winter 2013 NEW LEON Dozer Blade Mounting Brackets

LEON is committed to developing the very latest in dozer blade mounts for top selling tractors. Whether your needs are for snow clearing, earth moving, or silage applications LEON has you covered. All LEON Mounting Brackets are custom designed with the customer's interests in mind. LEON Engineers pay special attention to ensure 'Quick On - Quick Off' mounting systems offer:

- Great visibility of LEON Dozer Blade Unit from the tractor cab
- Complete accessibility to tractor hood and tractor service components
- Allow unobstructed turning radius of tractor wheels/tracks
- Provide excellent underframe clearance under the tractor to ensure you do not get hung up working in soft and hilly terrain

LEON Silver Spreaders Celebrating 15 Years

LEON Silver Spreaders are the best-selling spreader in the industry and for good reason. LEON offers an industrial built unit with modern technology and features to ensure reliable and superior quality and performance. With Horizontal and Vertical Beater models ranging from 425 to 900 ++ heaped bushels, LEON Silver Spreaders are your hard working reliable partner in the field. Features include:

HYDRAULIC PUSH-OFF TECHNOLOGY - This technology eliminates the old fashioned approach to unloading.

HYDRAULIC END GATE - The End Gate is hydraulically controlled and snugly fitted to help contain loose and semi-liquid material.

AUTO GATE - End gate automatically opens when Push gate is used.

UHMW POLYETHYLENE GUIDES - These guides insure the support and alignment of these moving parts through the entire cycle.

QUICK ON-OFF BEATER ASSEMBLY - LEON's unique Beater Assembly allows to easily convert Silver Spreader into a durable Trailer.

HIGHEST CAPACITY - LEON offers many models of Silver Spreaders covering a wider range of industry leading capacities.

LOADING CAPACITY - LEON's Spreader can be loaded 18000 lbs. (approx.) to 45,000 lbs. (approx.) depending on the models.

STEEL UNIFRAME CONSTRUCTION - LEON heavy duty construction is employed throughout the total framework.

VARIABLE SPEED CONTROL - The flow control valve regulates exact unloading speeds from 0 to 8 feet per minute.

SOLID POLY BOX - Solid poly box is constructed from super slippery corrosion proof solid poly materials.

TRIPLE LIP SEALED BEARINGS - Triple Lip Sealed Bearings with Eccentric Locking Collars are used for drive shafts for all models

DUAL PRESSURE TREATED LUMBER - 4"x4" high grade lumber protects the top of spreader frame when loading material.

FLOATATION TIRES - LEON's Spreader utilizes high and wide commercial truck tires as standard equipment.

ADJUSTABLE SPREADING WIDTH - Beaters are balanced and synchronized to deliver a wider and more consistent spread pattern.

EASY SERVICEABILITY - Operator has easy access to components.

Interested in a LEON Field Demo Day?

Contact your LEON factory representative for details on organizing a local product demonstration through your authorized LEON dealer. For over 60 years LEON is proud to be your "hard working, reliable partner" on the farm. Contact us today at :

For Your Snow Removal Needs

The LEON GZ300 and GZ400 Pull Scraper Series is the ideal winter necessity for every farm. Removing snow and clearing roads are made easy with the ripple formed moldboards that gives a cleaner roll off of materials. The LEON Pull Scraper offers operators great maneuverability with a standard offset control that lets the boom offset 10 feet left or right allowing the blade to work in those tough to reach locations. The heavy duty large width

floatation tires guarantee a maximum load rating and provides smooth operation on the field and on roads. With its high blade lift and large drag capacity the GZ300 and GZ400 are ideal for not only snow removal applications but for landscaping, irrigation, road grading, cleaning ditches, clearing brush, leveling fields and developing roads and waterways. Just don't take our word, try it out for yourself today!

Custom Color Options Available!

All LEON Models offer tough durable outer paint coverage after pre paint metal shot-blast cleaning process. This state-of-the-art finishing process ensures a professional and attractive appearance. Custom Colour Options are also available such as Case Red, Cat Yellow, John Deere Green, New Holland Blue, and MUCH MORE!
