## ***PULL SCRAPER SPECIAL***

### ***ALL SEASON - ALL PURPOSE***

The **LEON** PULL SCRAPER is an all year round must on every farm. Applications include:

- **General landscaping**
- **Filling in washouts**
- **Road grading**
- **Irrigation**
- **Maintain orchards & development**
- **Cleaning ditches**
- **Cleaning feed lots**
- **Rebuild ponds**
- **Rebuilding terraces**
- **Leveling fields**
- **Rock digging**
- **Clearing brush**
- **Snow removal**
- **MUCH MORE**

**LEON FULLY HYDRAULIC** 8 Way GZ Pull Scrapers are designed for 100 to 625++ horsepower tractors.

**UNIQUE LEON EXCLUSIVE ARCHED BOOM** - The Arched Boom of the **LEON** Pull Scraper provides optimum user visibility and maximum maneuverability in digging, angling, tilting and offsetting the cutting blade.

**8-WAY BLADE ADJUSTMENTS** - All **LEON** Pull Scrapers have 8 adjustments available including Hydraulic Lift & Digging, Hydraulic Left & Right Angling, Hydraulic Left & Right Tilt, and Manual or Hydraulic Left & Right Offset.

**CHOICE OF 12', 14', 16', 18', 20' or 22' BLADE LENGTH** - Customize your blade length to match your needs. The larger blade lengths are ideal for large fields and open areas while the 12 foot blade is great for those smaller areas or tighter spaces.

**HYDRAULIC CUSHION VALVE** - The Hydraulic Cushion Valve comes standard on all **LEON** Pull Scrapers to protect the blade against grading obstacles.

**HEAVY DUTY LARGE WIDTH FLOATATION TIRES** - These tires have maximum load rating and provide superior smooth operation.

**STANDARD OFFSET CONTROL** - Allows boom to offset 10 feet left or 10 feet right allowing the blade to work in tough to reach locations. This includes off road grading, leveling fence lines, ditching work, and so much more.

**RIPPLE FORMED MOLDBOARD** - The Exclusive **LEON** Ripple Formed Moldboard always 'rolls the load ahead' allowing for a cleaner roll off of material.

**SWING AWAY BOX END PLATES** - This option allows unit to be used as a box scraper. Swing away plates can be engaged to utilize the box scraper or can be placed back to allow material to slide off the end of the moldboard.

*LEON GZ features an exclusive arched boom design for maximum visibility and lifting height*

*Choice of 12', 14', 16', 18', 20', or 22' Blade Length*

*Fully Hydraulic 8 Way Blade Adjustments*

*Designed for Tractor Horsepower of 100 to 625 ++*

*LEON Heavy Duty Large Width Floatation Truck Tires*

*Ripple Formed Moldboard with Replaceable Cutting Edges*

*Offset Control allows scraper to be offset up to 10 ft. either side*

*Instant Box Scraper when Swing Away End Plates are in use*

*Weight box allows for extra weight to be added if needed*

*Baked-On Powder Paint Finish with Custom Paint Options*

**REPLACEABLE CUTTING EDGE** - All LEON Pull Scrapers come standard with a high carbon cutting edge which is REPLACEABLE and REVERSIBLE. This ensures maximum productivity and performance throughout many seasons.

**STANDARD WEIGHT BOX** - Positioned over the main axle to provide maximum stability and control on slopes and over bumpy terrain and incline. Optional 1000 lb. weights with transport hooks are available on all models.

**STANDARD SWIVEL HITCH TONGUE** - Provides the LEON Pull Scraper with superior maneuverability in those confined spaces and during sharp turns.

\* SPECIFICATIONS ARE SUBJECT TO CHANGE WITHOUT NOTICE

**STANDARD INDUSTRIAL BUILT RAM CYLINDERS** - Heavy Duty Cylinders are used throughout the unit to provide optimal performance in demanding conditions.

**BAKED-ON POWDER PAINT FINISH** - All LEON Models offer tough durable outer paint coverage after pre paint metal shot-blast cleaning process. This state-of-the-art finishing process ensures a professional and attractive appearance. Custom Colour Options are also available.

**ADJUSTABLE PARKING JACK, TRANSPORT SAFETY CHAIN LOOPS OR CLEVIS SWITCH HITCH OPTIONS ARE ALSO AVAILABLE ON ALL LEON PULL SCRAPER MODELS.**
