

## Make RAMROD Mini Skid Loaders your # 1 Choice....

*For more than 30 years now RAMROD has led the way with innovative machine design, high quality standards, and long 'maintenance free' equipment life. This emphasis on quality and reliability has returned good profits to thousands and thousands of satisfied customers of RAMROD products throughout the world. Check out why RAMROD's impressive list of features and services are benefitting dealers and operators worldwide:*

**UNOBSTRUCTED VISIBILITY - A FULL 360 DEGREES** - RAMROD ensures equipment operators a safe, unobstructed, working view of the attachment and surroundings.

**INDUSTRY LEADING LIFT AND CARRYING CAPACITY** - Boasting 1350lbs of lifting capacity (to 6ft high) and 2700lbs of carry capacity, the RAMROD 1350 shoulders the load on the most demanding jobs. Visit the RAMROD website for all lift capacity specifications.

**HEAVY DUTY SELF-LEVELING LIFT ARMS** - RAMROD's Self-Leveling System prevents load "fall back" on operator at full lift height and eliminates the danger of losing a load during the raising and lowering process. The RAMROD lift arm mechanism also provides excellent dump angle (85°) and rollback angles in any position.

**UNIQUE VARIABLE POWER CONTROL** - RAMROD's variable power adjustments allow the operator to direct the hydraulic power where it is needed the most. This feature allows the operator full control over the hydraulic output and more choice in a variety of conditions. Variable power control is available on most models.

**HIGH FLOW HYDRAULIC PUMPS** - Up to 14.5 gpm of hydraulic output to the attachments are ideal for heavy trenching, post hole auger work, concrete cutting, stump grinding, and hundreds of other demanding applications.

**EASY TO ACCESS ALL MACHINE COMPONENTS** - Service is easier; all components are readily accessible by simply removing access panels including access to fuel tank.

**PUSH-PULL TRACTIVE POWER** - RAMROD's exclusive, patented "high torque" hydraulic drive system provides up to 1700 lbs. of tractive power. Only RAMROD can tackle the toughest trenching, digging, pushing, drilling, lifting applications in the most challenging conditions.

**STANDARDS COMPLIANT** - North America and 'EU' Certified.

360 degree Operator Visibility

Up to 1350 lbs (613 kg) of Lift Capacity

Safe Self-Leveling Lift Arms

**SIMPLE TO OPERATE/SINGLE PALM STEERING** - The RAMROD instrument panel is designed to be simple and efficient to operate. The single hand controls allow operators to turn on dime while simultaneously controlling the lift and tilt attachment features.

**REMOTE CONTROL** - RAMROD offers a proven remote control system for industrial, construction, demolition, military and mining customers. Packages come complete with joy stick or paddle controls and operator's choice of a 'wireless or tethered' system. Operators can utilize remote control packages to power machine up to a quarter mile in distance away.

**LOW STEP PLATFORM** - RAMROD's ride on design keeps the operator productive and at the same time up and out of the dirt and mud. RAMROD provides longer and wider slip resistant platform with side and rear protection to provide increased comfort and protection for the operator.

**HANDY COMPARTMENT** - Convenient place to store gloves and other small operator items.

**HIGH MACHINE UNDER CLEARANCE** - RAMROD's exclusive high clearance and robust track design allows unparalleled performance when working on slopes, in mud, snow, soft terrain, and driving over curbs and obstacles.

**ALL DAY FUEL TANKS** - The large fuel tank capacity means the operator is able to work until the job gets done without refueling- save time and money.

**HIGH BEAM LIGHTING SYSTEM** - Halogen high beam dual lighting system lights the way for 24 hour a day operation. Dual lights are enclosed and protected from the elements in a metal casing to ensure long life.

**LOW FUEL AND HYDRAULIC OIL WARNING LIGHTS** - Automatically shows warning light when fuel or hydraulic oil is required.

**WORK INDOOR OR OUT** - RAMROD works in sun, rain, or snow. Indoor models are also available with exhaust purifications systems and propane conversion options

**QUICK-ON, QUICK-OFF ATTACHMENTS** - Change of any of the more than 60 versatile attachments in seconds- reduce downtime-increase productivity.

**POWDER PAINT FINISH** - Baked-on tough, durable outer protection provides a new standard of finish and quality.

**PURCHASE FLEXIBILITY** - RAMROD versatility and flexibility helps the customer to finance/lease RAMROD machinery through any authorized sales dealer.
